SSL VPN Client Download & Install

Logon to the Arafura Cloud Portal to get access to the SSL VPN Client.

This client will then provide secure access to the Arafura Connect Hosted Cloud environment, this client is required to access the Terminal Server Farm and associated applications, it is not required for Exchange Webmail or Sharepoint Portal Access.

It is preferable to use Internet Explorer 8, Mozilla Firefox or Apple Safari to access the portal.

Logon to the Portal through the following web address;

http://portal.arafuracloud.com.au

Once successful the following window will be displayed.

Select the "Secure Logon Portal Client" Icon as highlighted below to download the SSL VPN Client.

Once you have selected the "Secure Logon Portal Client" the following window may appear showing the security certificate error.
